

Linnette M. Beck AP, DOM, Dipl. Ac. (NCCAOM)

Linnette M, Beck AP, DOM, Dipl. Ac. (NCCAOM) is a primary care physician focused on finding root-cause solutions to chronic illness in her patients. She has a practice at the Beck Natural Medicine Center in Melbourne, Florida specializing in Functional Medicine, Homeopathy and Energetic Medicine including Zyto Electro-dermal Screening and EVOX emotional clearing. Linnette implements therapies based on leading-edge research in biochemistry and biophysics. Her insatiable passion and curiosity about human health has spanned nearly 20 years, initially sparked by her own life-threatening neurological illness. A licensed Acupuncture Physician in Florida, Linnette is nationally board certified as a Diplomate in Acupuncture (NCCAOM), and is a graduate of the Institute of Functional Medicine's Applied Functional Medicine in Clinical Practice Program (AFMCP). She received her Acupuncture Physician diploma from the Shanghai Institute of Chinese Medicine (1995). She holds numerous certifications in Acupuncture, German biological medicine, homeopathy, homotoxicology, functional medicine, electro-dermal screening and addictionology. In addition to her medical-related training, she holds a B.S. Business Administration from the University of Illinois (Urbana-Champaign), a MBA (1986) and M.S. Management (1989) from Florida Institute of Technology. She spends her free time studying medical topics, lecturing to community/physician groups, exercising and dancing.

Beck Natural Medicine has experience treating the following issues:

AGING ISSUES— mitochondrial resuscitation, collagen rebuilding, detoxification, free radical/antioxidant treatments etc

TOXICOLOGICAL ISSUES – multiple chemical sensitivity (MCS), environmental illness (EI) and a wide range of disorders resulting from a chronic toxic burden including, but not limited to, heavy metals, petrochemicals, solvents pesticides etc.

ENDOCRINOLOGY ISSUES – PMS, thyroid, diabetes, metabolic syndrome, menopause, andropause, adrenal fatigue, breast, prostate etc

PSYCHOLOGICAL ISSUES – depression, anxiety, anger, addictions, focus/attention etc

NEUROLOGICAL ISSUES – tingling, numbness, weakness, seizures, twitches etc

DERMATOLOGICAL ISSUES – rashes, dermatitis etc.

GASTROINTESTINAL ISSUES – irritable bowel syndrome (IBS), colitis, Crohn's disease, gas, bloating, etc

CARDIOVASCULAR ISSUES – circulation, stroke etc

IMMUNE ISSUES – autoimmune, low resistance, chronic infections etc

POLYMORPHISM GENETIC ISSUES – Many including detoxification, cardiovascular, immune etc

FATIGUE/ENERGY ISSUES – chronic fatigue, weakness etc

PEDIATRIC ISSUES – all types

ALLERGY ISSUES – food, inhalant etc

PAIN SYNDROMES – fibromyalgia, trauma, arthritis etc

GENERAL – insomnia, weight loss, osteoporosis etc

BECK NATURAL MEDICINE

“Seeking Root Cause Solutions for Chronic Illness”

**497 N. Harbor City Blvd
Melbourne, FL 32935**

Tel: 321-259-9090

www.BeckNaturalMedicine.com

With a truly holistic approach to wellness— body, mind, spirit—Beck Natural Medicine is dedicated to solving difficult, seemingly unsolvable clinical problems.

Awarded Leader in Innovative Medicine (2008)

Beck Natural Medicine is a health and wellness research institute dedicated to state-of-the-art healing modalities from around the world.

Our practice incorporates the best of East and West medicine including Traditional Chinese Medicine (TCM), bioenergetic medicine, homeopathy, genomics, functional medicine and emotional EVOX to identify and treat the underlying causes of “disease” rather than merely suppressing the symptoms.

DETOXIFICATION

Beck Natural Medicine offers one of the most advanced, state-of-the-art detoxification programs in the USA. Whether it be heavy metals, radiation, petrochemical, tobacco, Rx or recreational drug toxicity, our detox program utilizes a multi-step program that targets detoxification where it counts – at the intracellular level.

ELECTRO-DERMAL SCREENING (EDS)

State-of-the-art, non-invasive **Zyto's LSA PRO** equipment is used to measure imbalances in the body's meridians as well as for the detection of causative agents, toxins, organisms of disease. Virtual testing from the patient's home is available.

FUNCTIONAL MEDICINE (FM)

Functional Medicine shifts the traditional disease-centered focus to a more patient-centered approach addressing the whole person, not just an isolated set of symptoms. FM physicians spend more time with patients, listening to their histories and looking at

the interactions among the genetic, environmental and lifestyle factors that can influence long-term health and complex, chronic disease. FM considers multiple factors including environmental inputs, mind-body elements and genetic makeup.

HOMEOPATHIC MEDICINE

Homeopathy is a natural system of medicine which gives relief from suffering for millions of people in nearly every country of the world. It is a therapy based on the practice of treating “like with like”. Homeopathy is a well established healing system known to the ancient Greeks but introduced to the modern world by the brilliant German Physician Dr. Samuel Hahnemann, in the nineteenth century. Homeopathic medicines contain very, very small quantities of the substances—so dilute that if taken to a chemist for analysis, nothing may be found except for the base (water and alcohol). Due to the extreme dilutions, homeopathic medicines are theorized to work via an energetic physics-based method and considered completely safe for adults, children, babies and the elderly.

EVOX

Have you been traumatized? Are you ready to be free of emotional pain? Want to get past your past?

EVOX is a dynamic instrument which records short voiceprints, analyzes them and converts the results into frequencies, which in turn then play back to the patient as part of a multi-sensory experience with amazing results! EVOX is a multi-sensory (light,

sound, electro-magnetic) communication system which quickly, yet gently, repatterns the mind - body integration.

Emotional issues are addressed easily in a stress-free environment which allows the patient to release negative patterns (depression, anger, sadness, grief, fears, phobias).

BIO IMPEDANCE ANALYSIS (BIA)

The Quantum II BIA system provides a method of monitoring and historically tracking body composition: fat, muscle, bone, cartilage, water.

VISUAL CONTRAST SENSITIVITY (VCS)

VCS is the ability to discern areas of light and dark in the visual field from one another. The VCS test determines the least amount of contrast that a viewer can discern for various spatial frequencies. A significant amount of research has correlated diminished VCS with neurological toxicity. VCS may be a sensitive indicator of toxic effects due to the lipid solubility of many toxins within the neurological system.

BA GAU FA

Ba Gau Fa involves placing cups next to the skin and creating a vacuum and is used to relieve blood and Qi stagnation syndromes such as back, neck, shoulder and musculoskeletal pain due to an acute or repetitive injury.

LIGHT BEAM GENERATOR (LBG)

Using cold gas ionization, the LBG becomes a powerful tool to “move” the lymphatic system.
