

**KYMOGEN<sup>®</sup> EDUCATIONAL XPERIENCE**  
**DETOX DOUBLE FEATURE**

**THE FATRIX**

**THE GOOD  
AND THE BAD  
AND THE UGLY**

**FEATURING:**

**Linnette M. Beck AP, DOM, Dipl.Ac. (NCCAOM), Di.Hom., CAP**

## SATURDAY: THE FATRIX

**"THE FATRIX" IS NOT A WEIGHT-LOSS SEMINAR."**

"The Fatrix" is a seminar packed full of published nutritional biochemical research that is not yet being discussed in other functional medicine forums. The Fatrix will dramatically impact the way you identify, mobilize and detoxify lipophilic toxins, with special emphasis on improving your patients' neurological and mental function.

**Clinical Takeaways:**

- Understand cell membrane dualism and the lipid paradigm shift
- Understand why fatty acid supplementation is far more complex and needs to be more individualized than you may have been previously lead to believe
- Understand how to identify and treat the neuro-toxic patient
- Learn why mental and neurological illnesses may share a common physiological basis
- Understand when to and when not to implement aggressive deep detox treatments
- Understand the Syndrome X connection to detoxification and neuro health
- Learn about genetic polymorphisms beyond liver detoxification that dramatically impact neuro-toxic conditions
- Learn why high HDL may not be a good sign.
- Learn how to safely detoxify the hypersensitive patient
- Learn a simple test to help you baseline and monitor neuro conditions
- Learn why all fatty acid lab tests are not alike
- Understand methylation and homocysteine beyond traditional cardio concerns
- Be introduced to "The Fatrix's" next level of advanced lipophilic toxin mobilization and clearance utilizing IV therapy.

**What others have to say about "The Fatrix"!**

"Rarely are we gifted with a PARADIGM shift in nutritional medicine. Linnette Beck has just done it! Synthesizing the principles of physical chemistry, biochemistry, physiology, anatomy and nutrition, Linnette has given us a clinically relevant understand of the Beta-Oxidizer Neurological Syndrome by opening are minds to "THE FATRIX"

Jack E. Young, MD, MD(H), NMD, PhD

"Dr. Beck has a passion and a vision for the frontier of health that exists at the bi-layered cell membrane. The frontier of health and healing exists at the cell membrane and the normalization of its structure and function. Dr. Beck loves and lives at the cell membrane and conveyed to me the information I need to be a more effective physician for neurological healing."

George Moon, DC

SUNDAY: THE GOOD, THE BAD, THE UGLY

**IODINE – BROMINE – CHLORINE – FLUORINE  
THE ROLE OF HALOGENS IN HEALTH AND TOXICITY**

In this one day, fast-paced seminar Linnette will provide an overview of the serious downstream consequences of “potentially toxic halogens”--fluorine, chlorine and bromine--on human health and as a possible “root cause” of resistant disorders. This seminar also provides a paradigm-shifting view on the role of iodine--an essential halogen. Iodine’s essential role reaches far beyond the thyroid.

**Clinical Takeaways:**

- Learn about the many toxic halogen sources in our environment
- Understand why toxic halogens are so harmful to human health
- Understand iodine deficiency induced by toxic halogens
- Learn about the different roles of iodine and iodide
- Understand iodine’s pivotal role in cellular evolution from single to multi-cell organisms
- Learn why the pituitary may not be the master gland after all
- Make up your own mind about “The Iodine Controversy” within orthodox and alternative medicine
  - Downstream consequences of iodine deficiency
  - Thyroid: Hyper, hypo, auto-immune thyroid disorders
  - Female health: Ovarian cysts, breast cancer, fibrocystic breast disease
  - Endocrine: Adrenal, prostate, pancreas
  - Neurological/Psychological: Mood, intelligence, neuro-degenerative disease
  - Common disorders: Cardiovascular disease, cancer, hypertension, diabetes
- Iodine testing
- Case studies

Linnette M. Beck AP, DOM, Dipl.Ac. (NCCAOM), Di.Hom., CAFE to chronic illness in her patients. She has a busy practice at the B toxin-induced syndromes. Linnette implements therapies based on passion with the topic of detoxification has spanned over 14 years, licensed Acupuncture Physician in Florida, Linnette is nationally b graduate of the Institute of Functional Medicine's Applied Function: Acupuncture Physician diploma from the Shanghai Institute of Ch Open International University of Complementary Medicine (1997) in Miami, Florida. She holds numerous certifications in Acupun functional medicine, electro-dermal screening (EDS/EAV), and ac a B.S. in Business Administration from the University of Illinois (1989) from Florida Institute of Technology. She spends much of l
